MEMORANDUM FOR: Chief, Policy Branch, Policy and Plans Group

25X1 FROM:

Information Systems Security Group

25X1 SUBJECT:

Countermeasures Macro Resource Data Study

25X1 1. Information Systems Security Group (ISSG) is responsible for the development, implementation and enforcement of policies and standards designed to protect computer systems used for the processing and storage of Agency data.

a. During 1983, ISSG expended \$268,000 for the development and maintenance of various types of add-on protection for automated information processing systems; operational testing and evaluation; threat studies and briefings; and administrative/infrastructure costs. Twenty-six manpower positions (including three secretaries) were utilized in connection with this effort.

25X1 2. The Office of Data Processing (ODP) also includes dollar funding and manpower positions for computer security in its budget. One and one-half manpower positions were provided

by ODP in 1983 for the development and maintenance for audit trail protection. In 1984, two manpower positions and \$35,000 are being utilized for audit trail protection. No expenditures have been budgeted by ODP for computer security in 1985. No expenditures have been made to procure equipment with special security features.
